EXPERIENCE

Softwire, London, UK — *Software Developer*

SEPTEMBER 2021 - OCTOBER 2023

- Worked with designers and developers to create visually appealing and user-friendly **WordPress** plugins (custom post types, ACF integration).
- Collaborated with designers to update the video UI across smart TV and web platforms following **Figma** UI Design files.
- Troubleshooted challenging front-end bugs across devices ranging from smart TVs to web applications using browser developer tools.
- Ensured code quality and adherence to web development best practices.
- Optimized website performance and user experience through regular updates and troubleshooting.

Starleaf, Watford, UK — Cloud Services *Intern*

SEPTEMBER 2019 - SEPTEMBER 2020

- Created an interactive timeline chart using **Javascript** to visualise diagnostic data about a call which reduced the time to identify call errors.
- Utilised **MySQL**, proficient in executing CRUD operations, database migrations, and designing schema changes.
- Analysed requirements and developed data dashboards using **Python, HTML, and CSS** to support the request tickets from cross-functional teams.
- Coordinated tasks with **Jira**, facilitated collaboration on Slack and ensured code integrity using **Git** for version control.

SyberPong, Ulaanbaatar, Mongolia — Volunteer Web Developer

NOVEMBER 2020 (2 weeks)

- Developed and deployed a responsive website in **HTML**, **CSS** and **Javascript** to launch an indie game demo and monitored its engagement using **Google Analytics**.
- Replicated front-end features from different website designs such as screen animations and mouse hover effects using **Javascript**.
